## Courier Delivery Service

We have set up an account with the courier service FedEx. This will allow us to arrange a collection from most mainland UK surgeries that are outside our normal delivery areas, saving the trouble of having to go to the post office .

The courier service is generally to be used if there is sufficient quantity, i.e. one reasonably large parcel or several smaller ones.

To use the service all you need to do is let us know when you require a collection, if you want a same day collection you would need to let us know by 11 am. To ensure safe transit you will still need to pack the work up as you would do for postal work but the FedEx driver will collect the parcel(s), place them in a collection bag and provide the necessary paperwork.

FedEx will have the surgery contact details but if there are any special collection instructions or a particular person who will be the contact point please let us know.

For smaller parcels or single jiffy bags we would ask you to please use the supplied freepost labels.

If you require any further information please let us know.
