## Ultimate Natural Dentures Gingival Colouration

We offer a number of solutions to improve the appearance of dentures. One of the areas often overlooked is the gumwork which can often be the telltale sign of dentures.

For a relatively modest cost a denture can be lifted way above the norm, providing the patient with improved appearance and confidence. There are no limits either as the gum colouration can be applied to all types of denture from NHS all the way up to the highest quality implant retained. All of the colours we use are also permanent and built into the denture.

### ***Inexpensive***

The solutions to this problem range from an inexpensive £10 per denture for simple single colour staining all the way to a full colour match of the gumwork.

### ***Ultimate Natural Dentures***

Our Ultimate dentures come with Gingival Colouration as standard as well as surgery visits and detailed shade taking.
